KaMOS® BlindPlugKey

- for a safer and faster way to install BlindPlug after leakagetest of KaMOS® Patented gaskets

Karmsund Maritime Offshore Supply AS

Karmsund Maritime Offshore Supply AS is a Norwegian technology company situated at Haugalandet, the west coast of Norway.

KaMOS® specializes in developing and producing time, cost and safety efficient solutions and products, serving both onshore and offshore industries worldwide.

Our business is to continue our efforts to improve issues relating to health, environment and safety at the workplace and in connection with the goods and services that we deliver.

KaMOS® products are the result of research and development done in conjunction with input from offshore industry players with more than 20 years of experience.

KaMOS® products have been in the market since early 1990 and are patented worldwide.

KaMOS® is focused and certified for NS-EN ISO 9001:2008 and NS-EN ISO 14001:2004 for security, work and environment.

KaMOS® has available stock at all times; ensuring deliveries can be made in the shortest possible time, to customers with time constraints.

KaMOS® Gasket BlindPlugKey

KaMOS® has developed a new method for a faster way to install BlindPlug after leakage test by using KaMOS® Patented gaskets.

The KaMOS® BlindPlugKey can be used in all flange connections.

The KaMOS® BlindPlugKey will make the installation of BlindPlug easier even for the diver. There will no longer be no need for use of hands or other tools between the flanges.

Installation of the BlindPlug is easy.

Simply

1. Connect the KaMOS® BlindPlug to the key
2. Install the BlindPlug on the gasket pipe
3. Dismantle the key from the BlindPlug

KaMOS® Gasket BlindPlugKey
